## SUMMARY:

Aspiring Python/Django Developer with expertise in Python, Django, and full-stack web development. Proficient in building scalable applications, implementing user authentication, and optimizing performance for dynamic web solutions. Skilled in using Python libraries for data manipulation, visualization, and image processing.

## TECHNICAL SKILLS:

- **Programming Languages** - Python, C, C++, Java, C#
- **Frameworks & Libraries** - Django, React, NumPy, pandas, Pillow, Matplotlib
- **Database** - MySQL, SQLite
- **Tools & Technologies** - Git, GitHub Actions, RESTful APIs, HTML, CSS, JavaScript
- **Soft Skills:** - Problem-Solving, Team Collaboration, Communication

## PROJECTS

### 1. E-commerce Website [\[Link\]](#)

- **Description :** Developed a full-featured e-commerce website using Django for the backend and Bootstrap for the frontend.
- **Responsibilities :**
  - Implemented product catalog, shopping cart, and order processing functionalities.
  - Designed and developed user authentication and order tracking system
  - Ensured responsive design and cross-browser compatibility.
- **Technologies Used:** Python, Django, HTML, CSS, JavaScript, Bootstrap

### 2. Image Optimizer Pro (Image Compressor and Converter Website) [\[Link\]](#)

- **Description :** Built a versatile image optimization tool with compression, resizing, and format conversion functionalities.
  - Implemented backend functionality using Django and Pillow for image processing.
  - Designed a responsive interface with Bootstrap and integrated form validations.
- **Technologies Used:** Python, Django, Pillow, HTML, CSS, Bootstrap

## EDUCATION:

### Bachelor of Computer Applications (BCA)

Veer Bahadur Singh Purvanchal University, Jaunpur

July 2022 - July 2025

## HOBBIES:

- Reading Tech Related Content
- Creating Personal Projects
- Gaming
- Learning New Technologies
